### PROFESSIONAL EXPERIENCE

---

#### [SailPoint](#)

Web Developer

**Austin, TX**

*Jan 2020–Present*

- Contributed to increase site traffic by 5.5 million unique visitors worldwide per year.
- Revamped our legacy site code to increase site loading times on average by 25%.
- Owning our company's process to localize our website into multiple languages. Currently built in 7 localized sites for different regions. In charge of QA and communication with external agencies for translations.
- Responsible for editing english code to work on a more global scale.
- Created a fluid ticketing system for anyone in the company to make a web request and the request gets automatically assigned to the correct individual. Resulted in a 40% quicker turnaround for internal requests.
- Work closely with other teammates in the UI and UX teams to implement new features such as new templates, components, custom forms, and site rebrands.
- Managed developer interns to track progress and assist with questions/roadblocks.
- Currently working to make our site a headless WordPress site with NextJS as the front end.

#### **Harris Media**

Web Developer

**Austin, TX**

*March 2019–Jan 2020*

- Developing full scale websites for small businesses to multi billion dollar corporations.
- Oversaw the lifecycle of 7 projects from start to finish. All were completed on time while staying under budget.
- Jobs were mostly in the WordPress and Nationbuilder universe.
- Created sites for internal corporation employees to submit company feedback.
- Developed an app for a corporate event in Washington DC where users can find themselves on a map and the nearest private event.

**Mint Design Agency**  
Web Developer

**San Francisco, CA**  
*Sept 2018–Sep 2019*

- Managed company portfolio of over 30 clients
- Assigned projects to junior developers and oversaw completion of projects.
- Communicated to clients and stakeholders on progress of projects, roadblocks, and handoff processes.
- Use theme templating systems such as DIVI to create grid based websites
